PROFESSIONAL SUMMARY

Motivated and detail-oriented Full Stack Developer and recent B.Tech graduate with foundational experience building web applications using Java (Spring Boot), Python (Flask, Django), PHP (Laravel), React.js, and Angular. Gained hands-on exposure to RESTful API development, MySQL database design, and computer vision integration through academic projects and an internship. Passionate about clean, maintainable code and eager to join a collaborative team where I can contribute, grow, and develop production-ready skills in full-stack development.

TECHNICAL SKILLS

Programming Languages: Java, Python, PHP, JavaScript, TypeScript, HTML5, CSS3
Frontend: React.js, Angular 15+, Tailwind CSS, Bootstrap 5, Material UI, Redux, Next.js
Backend: Spring Boot, Spring MVC, Flask, FastAPI, Django, Laravel
Databases: MySQL, SQLite, Hibernate ORM, JDBC, Query Optimization
AI/ML and Computer Vision: OpenCV, MediaPipe, ONNXRuntime, TensorFlow, OpenAI API, Gemini API, Prompt Engineering
DevOps and Tools: Docker, Nginx, Gunicorn, Git/GitHub, GitLab, Maven, Postman, Lighthouse, VS Code, npm, Vite
Security and APIs: REST APIs, JWT, OAuth2, Domain Verification

PROFESSIONAL EXPERIENCE

Trainee Software Developer *November 2025 – Present*
aPLS Web Development | Full-time | On-site

- Architected and deployed an Embeddable Face Recognition Widget SaaS with three-layer domain security and per-session rate limiting using Laravel 11 and Docker.
- Developed a Face Recognition Kiosk using Flask, OpenCV, and MediaPipe with liveness detection and anti-spoofing, achieving 15–30 FPS real-time processing.
- Built the Swayamsiddh NGO Website with bilingual content management, secure admin portal, and Bootstrap 5 responsive design.
- Contributed full-stack modules: React frontends, Flask/FastAPI APIs, MySQL optimisation, and CI/CD deployment support.

Web Development Intern *July 2024 – August 2024*
TechnoHacks Edutech | 6 weeks | Remote

- Designed and deployed five responsive web pages using HTML5, CSS3, Bootstrap 5, and JavaScript (ES6+).
- Achieved Lighthouse performance scores above 90 across all pages; implemented responsive, mobile-first design.

FEATURED PROJECTS

Attendo – Student Attendance Management System
Spring Boot, Angular 15, MySQL, REST APIs | 2024–2025

- Attendance platform for 200+ students and staff with real-time tracking and automated reporting.
- Built 15+ RESTful API endpoints with Spring Boot and Hibernate ORM; optimized MySQL queries for sub-second response times.
- Implemented JWT authentication and RBAC with Spring Security — 70% less manual data entry, 40% faster API response.

F-Widget Dashboard – Embeddable Face Recognition SaaS
Laravel 11, PHP 8.3, MySQL, Docker, Nginx

- Multi-tenant SaaS with Shadow DOM-isolated widgets, three-layer domain security, HMAC token validation, and per-session rate limiting.
- Dockerized Nginx/PHP-FPM stack with session persistence, usage analytics, and enterprise-level access controls.

Face Recognition Kiosk – Liveness and Anti-Spoofing System
Flask, OpenCV, MediaPipe, ONNXRuntime, Python

- ArcFace embeddings and MiniFASNet spoof detection with CLAHE normalisation; 15–30 FPS real-time performance.
- Deployed behind Nginx with Gunicorn workers; MySQL-persisted embeddings with HTTPS and systemd hardening.

DataAuth – Resume Authenticity Verification System
Laravel, PHP, MySQL, RapidAPI, PDF Parsing

- Automated resume verification with intelligent PDF parsing at 85% field-match accuracy against LinkedIn profiles.
- Reduced manual HR screening time by 50%; enabled teams to process 50+ resumes daily via RapidAPI integration.

Swayamsiddh NGO Website
Laravel, PHP 8.3, MySQL, Bootstrap 5, JavaScript | Live: swayamsiddh.in

- Bilingual (English/Marathi) NGO platform with secure admin portal, AOS animations, SMTP contact, and accessibility controls.
- Enabled the NGO team to self-manage bilingual content updates entirely without technical assistance.

EDUCATION

B.Tech – CSE (Cyber Security and Forensics) *GPA: 9.00/10.0 | 2022 – 2025*
Sandip University, Nashik, India

Diploma in Information Technology *2019 – 2022*
Sandip Foundation, Nashik, India

CERTIFICATIONS

Java Full Stack Development – The Kiran Academy *Jan 2025 – Jun 2025*
Network and Web Application Security – Sandip University *Feb 2024*
Cyber Security Level 1 – Sandip University *May 2023*

KEY ACHIEVEMENTS

- Manual data entry reduced by 70% through Attendo system automation.
- API response latency improved by 40% via MySQL query optimisation and caching.
- 85% field-match accuracy with DataAuth's PDF parsing engine; 50% reduction in HR screening time.
- Real-time face recognition at 15–30 FPS with anti-spoofing; Lighthouse scores of 90+ across all apps.
- Attendo served 200+ concurrent users with zero downtime.
